3/17/10:

Last Thursday night's so-called 'Public Forum' held by the SSVEC was more of the same. For the first hour and a half they lectured us with the usual drivel. Then the first half dozen or so chosen speakers-- chosen by them--spoke ad nauseum. The room was absolutely freezing. The moderator was chosen by them--no time limit was put on how long one could speak. It took so long to hear them that a lot of people left. They insist that this was a discussion, an exchange of ideas-- baloney! It was just more of the same bully tactics. There was no point in asking a question as they twisted it to suit what they wanted to answer and took forever to do so and of course never answered what had been asked in the first place so several of us just made statements. Their \$450/hour attorney (paid for by us of course) was there. It is ridiculous that they insist on powering this line with way out of date technology. Equally ridiculous that they will never really meet with us--their rules etc, etc.

Well just wanted to let you know what had transpired.
